

REACH (EC regulation 1907/2006)

Implementation at KAIMANN

KAIMANN group companies manufacture various types of rubber foam at production site in Germany. Articles, as defined in EC regulation no. 1907/2006 (REACH), article 3 (3), are exempt from registration in cases where there is no intended release of chemical substances. According to what has been submitted for our attention, we are of the opinion that the

definition of „Article“ according to REACH can be applied to all our rubber foam. During the manufacture of our products, we do not intentionally use any dangerous substances – Substances of Very High Concern (SVHC), determined by the European Chemicals Agency on 28th October 2008 and listed as follows:
